

Firmware Upgrade Instruction

Please download appropriate firmware from our website and copy it to USB flash drive.

Please insert USB flash drive into the top USB port of the DVR before you start upgrading.

Proceed to menu -> maintenance -> upgrade -> choose the appropriate firmware upgrade. Press ok to reboot the DVR and follow the instructions to complete the firmware installation.

Verify the following versions of hardware, software, and software release date are installed upon completion of the upgrade.

DV5208

Hardware version: 1.2.0

Software version: 1.3.10

Software release date: 2010.04.12
